Welcome to The Eye Group! We are honored that you have chosen us as your eye care provider and look forward to providing high quality care. To ensure you have an excellent experience during your first visit with us, please read through the following information and complete the attached forms.

An average new patient exam takes 1 ½ to 2 hours and typically consists of a comprehensive dilated eye exam. Eye drops to dilate your pupils are part of your examination and can result in temporary blurring of your vision which may last several hours. In addition, light may seem brighter when your pupils are dilated. **We recommend bringing your sunglasses as well as someone to drive you home.**

Please complete all of the attached paperwork, including the Patient Information Record, Health History Form and Authorization for Disclosure. **Bring these completed forms, your current glasses and any eye drops you are using to the appointment and plan to arrive approximately 10 minutes before your scheduled appointment time.**

We have established **Envision Optical** to further meet the needs of our patients by offering a wide variety of quality eyewear at competitive prices. We also offer the latest in contact lens technology, including the newest bifocal contact lens designs.

Our office accepts a wide variety of medical insurance plans as well as VSP and some EyeMed vision insurance plans. Please make sure you bring your most current medical insurance card to each visit. If your insurance plan requires an authorization or referral, it is your responsibility to make sure this has been received by us before your appointment or we may have to reschedule your appointment.

In an effort to keep our prices competitive and our fees reasonable, **we ask for payment at the time of service for copays, deductibles and services/tests not covered by insurance.** We accept cash, check or credit card. If at any time payment to our office presents a financial hardship, please advise us so that our billing staff can assist you.

If it is necessary for you to change your appointment, we ask that you call or text us at least 24 hours in advance. This allows us to offer your time slot to another patient in need of care. The doctors at The Eye Group always attempt to see patients in a timely manner, however, emergencies and unforeseen complications may cause delays in the schedule. We appreciate your patience in these circumstances and assure you that every patient will receive the attention they require and deserve.

If you have any questions, please call or text our office at 812-423-3131. We look forward to meeting you.
